East Pisangan, Pulo Gadung, East Jakarta City, Jakarta 13230

hi, im Yosef Fourentino Wicaksono, but you can call me Yosef or most of my friend calls me Ocep, i am a final year student at Multimedia Nusantara University, majoring in Informatics. Basically i am interested to be a Fullstack Developer. Currently I am experting on Front- End Websites. However, I am now starting to venture into the backend field. With a combination of technical skills and soft skills, I am ready to contribute to the field of software development.

## Education

**Universitas Multimedia Nusantara - Tangerang, Indonesia**

Aug 2021 - Aug 2025

*Bachelor of Informatics, 3.34/4.00*

**Dicoding - Online/Remote**

Feb 2024 - Jun 2024

*Certificate in Front end and Back end Web*

## Experiences

**Dicoding Bootcamp Batch 2 (Dicoding Academy) - Jakarta, Indonesia**

Feb 2024 - Jul 2024

*Independent Study MSIB*

The Dicoding Certified Independent Study (SIB) is part of the Merdeka Campus program aimed at producing high-standard talents that meet industry standards.

- Studying many modules such as the basics of Git and GitHub, basic JavaScript programming, beginner front-end web development, front-end web fundamentals, front-end web expert, and back-end application development for beginners.
- Creating many mini projects with HTML, CSS, JavaScript, Webpack, and Node.js and have already used APIs
- Creating and building a capstone project "Portfolio Maker" with the team, where I took on the role of front-end developer and UI/UX designer

**PT Winnicode Garuda Teknologi - Bandung, Indonesia**

Aug 2024 - Nov 2024

*Fullstack Developer*

PT. Winnicode Garuda Teknologi is a company engaged in Media Publication and Digital Services, established in 2020 in Bandung. The company was founded to provide innovative publication and digital solutions for various industrial sectors.

- Developing a news portal website using JavaScript, ReactJS, Tailwind CSS, NodeJS, ExpressJS, and MongoDB, as well as Postman to assist in API development.
- Designing the UI/UX using Figma.
- Creating features such as news listing, search page, top headline news, and news categories.

**Ramu Studio - Jakarta, Indonesia**

*Freelance*

Ramu Studio is a three-person freelance team specializing in developing various website-based projects for companies across different sectors. Combining expertise in frontend, backend, and UI/UX, Ramu Studio delivers functional, modern web products tailored to each client's needs.

- Developing the B Music Studio booking website for music studio reservations.
- Creating the Giat AI company profile website.

## Organisational Experience

**UMN radio - Universitas Multimedia Nusantara**

Jan 2023 - Nov 2024

*Head of Audio Creative*

UMN Radio is a campus media that produce broadcast output everyday on weekdays, we have a variety of special programs that are different each day. Not only broadcast output but also we have podcast, radio drama, we make news coverage and many articles.

- Responsible in all of audio output
- Manage all my team of audio creative
